You Saved My Life

By Scott Putnam
3-06-2026

v.1 There was a time when I couldn't see
Past the lies in my head –
On a one-way path to destruction
But You saved me instead

Intro Now I believe – every word that You said
Now I can see – the darkness has fled
Now I can hear – Your message is clear
There's no more fear – (cause God You're right here x2)

Chorus Come into my life, come and make things right
Come into my heart, may we never part
There's no one like You, that can do what You do
In my darkest night – You saved my life, God You saved my life

v.2 There was a time when I couldn't breathe
Crushed by the weight of my sins
Hope was lost and Death in my doorway
But God, you saved me again

Intro Now I believe – every word that You said
Now I can see – the darkness has fled
Now I can hear – Your message is clear
There's no more fear – (cause God You're right here x2)

Come into my life, come and make things right
Come into my heart, may we never part
Chorus There's no one like You, that can do what You do
In my darkest night – You saved my life, God You saved my life

God, you saved my life
